BANSBACH continues to grow: Eleven-strong team joins from BDO for Freiburg office

BANSBACH gains eleven new employees* from the tax, audit and corporate finance departments at its Freiburg location. As of March 1, 2022, the acquisition of the tax team around BDO Senior Manager Alexander Friedemann, which began in November 2021, was completed. The team will be complemented by BDO Senior Manager Steffen Walter, who will strengthen the audit area at the Freiburg location.

In total, two auditors/tax consultants and three tax consultants have joined BANSBACH. The professionals were followed by six senior professionals and professionals.

For BANSBACH, the additions at the Freiburg location fit perfectly into the strategic concept of further inorganic growth at existing locations. The areas of tax declaration and tax structuring consulting, auditing and, in particular, corporate finance, which have also grown strongly in Freiburg in recent years, will be further strengthened by the additions.

"We are pleased about the reinforcement in Freiburg and are convinced that the colleagues will be an excellent reinforcement for our entire company", says Hanns-Georg Schell, Managing Partner of BANSBACH and head of the Freiburg office.

Alexander Friedemann is a certified public accountant and tax advisor with almost 30 years of experience in auditing and consulting. Most recently, he established and operationally managed BDO's consulting team in Freiburg. In recent years, his focus has been on providing tax advice to companies and private individuals.

Steffen Walter, who joined as an Associate Partner, is also a certified public accountant and tax advisor and has gained over 20 years of experience at a "Big 4" company and BDO in auditing individual and consolidated financial statements in accordance with both the German Commercial Code (HGB) and IFRS. He was also active in the area of quality assurance at BDO across all locations.

BANSBACH is thus continuing the targeted growth course that the company has been pursuing for several years and is once again gaining strong partners. Just recently, in the summer of 2021, BANSBACH strengthened itself through the merger with O&R Oppenhoff & Rädler AG in Munich and gained a new location with 45 employees.

About BANSBACH GMBH
